

Automation Labels

Get in touch with an expert

1-800-518-0364 / support@ga-international.com

Customized for Any Labeler

Our labels have been tested with a number of automated labelers including Scinomix, Agilent, and other brands. We have the manufacturing and design capabilities to create labels that will work with your labeler.

High-Performance & Reliability

With years of experience, we have researched and developed labels that endure extreme cold, heat, moisture and chemicals. When it comes to resistance, we have the label that meets the highest standards in the industry.
