-196°C

Key Benefits

- Reduces labeling delays and frees up time
- Ensures accurate barcode verification
- Secure adhesion

Custom Automation Labels

LabTAG develops custom automation-ready labels for all major automated labeling machines, including OEM, integrator-built, and legacy systems.

We optimize:

- Label construction
- Adhesive performance
- Liner release
- Print & apply

Why LabTAG for Automation

- In-house R&D and materials engineering
- Technical support team of professional scientists
- Quick lead times
- Worldwide shipping
