

XyliTUFF™

Extended Exposure Xylene & Chemical-Resistant Labels

Temperature range from -40°C to +120°C

- Withstand extended exposure and long-term immersion in xylene, as well as the new generation of safer, non-toxic, xylene alternatives
- Ideal for microscope slides used in cytology/histology, and recommended for routine and special staining protocols
- Resistant to toluene, hexane, acetone, alcohols, dimethyl sulfide (DMSO), acetonitrile (ACN), methyl ethyl ketone (MEK), and other harsh chemicals and solvents
- Compatible with manual staining, as well as automated slide processors and stainers
- Ideal for long term slide identification and storage
- Waterproof, and abrasion resistant
- Can be printed with alphanumeric text, 1D/2D barcodes and serialized numbers using most common thermal-transfer printers

Recommended Ribbons: XAR-Class Xylene Resistant

Xylene and Chemical Resistant Labels

Item #	Inches (W x H)	Labels Across	Core	Labels/Roll
FTT-213C1-5WH	0.75" x 0.2"	1	1"	5,000
FTT-213C3-10WH	0.75" x 0.2"	1	3"	10,000

Item #	Inches (W x H)	Labels Across	Core	Labels/Roll
FTT-117C1-3WH	0.866" x 0.59"	1	1"	3,000
FTT-117C3-3WH	0.866" x 0.59"	1	3"	3,000

Item #	Inches (W x H)	Labels Across	Core	Labels/Roll
FTT-133C1-4WH	0.866" x 0.75"	4	1"	4,000
FTT-133C3-8WH	0.866" x 0.75"	4	3"	8,000

Item #	Inches (W x H)	Labels Across	Core	Labels/Roll
FTT-98C1-1WH	0.875" x 0.875"	1	1"	1,000
FTT-98C3-3WH	0.875" x 0.875"	1	3"	3,000

Item #	Inches (W x H)	Labels Across	Core	Labels/Roll
FTT-152C1-1WH	0.9" x 0.75"	1	1"	1,000
FTT-152C3-3WH	0.9" x 0.75"	1	3"	3,000
